Merge Cube - Quickstart Guide

In the box

- 1x Merge Cube
- Packing box (doubles as a mobile device stand)

Before you start

- A mobile device running iOS or Android is required to use the MERGE Cube. This can be a phone or tablet (like an iPad).
- Make sure your phone is running the latest software:
 - Apple Devices: IOS 11 and newer
 - Android Devices: Android 8 OS and newer
 - Your device will also need to have at least 2GB of RAM to run the Merge apps

Merge Cube – Quickstart Guide

Before you start

The Merge Cube is compatible with the majority of iOS and Android mobile devices. Some Chromebook devices are also compatible

The easiest way to check the compatibility is to skip to “Step 2: Downloading the apps” and follow the instructions. If you are unable to complete step 2 then your device is most likely not compatible.

Step 1: Creating an account

to create an account go to trymerge.com/VRExpert.

Whether you have a Join code or want a free trial, follow the instructions provided on the website to create an account.

Step 2: Downloading the apps

1. Take out your mobile device and go to the App Store for iOS or Play Store for Android
2. Look for “Merge Object Viewer” and download the app. Do the same with “Merge Explorer”.
 - a. Merge Explorer (Students can learn science effectively with over 100 science simulations they can touch).
 - b. Merge Object viewer (Upload, view, and share 3D objects on MERGE).

Object Viewer

Over 1000+ hands-on, true to life, digital teaching aids for science and STEM

Merge Cube – Quickstart Guide

Step 3: Exploring the Merge Cube

1. Open either one of the apps and give the app permission to use your camera.
2. Make sure you are logged in to your account. You can check this in the top left corner.
3. Choose a video or object you would like to take a look at.
4. Press “3D” at the top of the screen and press “Cube” to start using your Merge Cube by looking to the Merge Cube with your camera.

VR-Expert tips :

More free apps for android & IOS Appstore

- Explore the free apps available in the IOS & play store. See our recommendations below
 - Th!ngs (holographic mini-games)
 - Hologlobe (Earth visualizations)
 - Mr. Body (anatomy)
 - Dig (Building)
 - MyARquarium (Fishes)
 - Galatic Explorer (astrology)
- You can also use the Merge Cube on Instagram with their own filters by searching the @Merge page.
- You can clean the Merge Cube by using mild soap and gently washing the Cube, then rinse with water and dry with a towel.
- The packaging insert doubles as a Mobile Device Stand. The Mobile Device Stand will allow you to experience Merge Cube without needing to hold your phone or tablet.
